Education:

The Recording Connection, Philadelphia, PA
Audio Engineering and Music Production
February 2014 – August 2014

The Recording Connection covered the basics such as: how sound travels, basic electronics, acoustics, digital audio vs. analog audio, connectivity, microphones and microphone placement. The proper use and functions of Pro Tools 11 was also a part of this course. I've learned what compression and EQ are, how to properly use these features, how to properly use MIDI in ProTools, automation, and basic mastering.

Work Experience:

Crystal Clear Recording Studios, Philadelphia, PA
