To take a film from one genre and smash it headfirst into another genre. One of the most enticing examples of this idea is Quentin Tarantino's Kill Bill Vol. 1 & 2. It's a revenge movie, it's a spaghetti western, it's a samurai movie, it's a kung-fu moive, and it's a straight up good old -fashioned action movie.

I believe Genre Mashing is a fresh idea that can bring many interesting results. I would consider making a film similar to Cowboys and Aliens, when our civilization back in the 1800s had to face an alien civilization, I would also include some drama, romance and comedy into the same film.
