Ryan Conway
Head Engineer/Owner
Conway Sound
3156 W 38th Ave, Denver, CO 80211

Dear Ryan Conway,

I am seeking employment in the music industry as an Ableton electronic music producer, audio engineer assistant, and recording assistant. I have 3 years of experience in Ableton music production, one year in audio engineering and recording. I have successfully completed an apprenticeship at Conway Sound that lasted one year. There I practiced many hours of engineering, music production, Dj, and recording in a time span of a year.

My mentors at Conway Sound (Josh Denhart and Ryan Conway) shaped me up and trained me to the industry standards. I have mastered Ableton, mixing and mastering techniques, and recording techniques. I am confident in my set of skills, and I am ready to learn more as I grow. I would be a great candidate for this position, I would like you to consider me as an addition to your studio, for I will bring good things.

I will follow up in a week to schedule an interview, or you could contact me at agrijalvaruiz@gmail.com before then. I will talk to you soon.
