Work Experience

2015-Current The Showcase at Crystal Clear Studio Philadelphia, PA
Live Sound Engineer apprenticeship under Joey Heier

- Assist and participate in microphones placement and connections following a pre-determined signal path plan, during recording set up.
- Help and assist with live recording and saving of each session
- Tear down and clean up of studio after sessions.
- Headphone monitoring during live recording.
- Utilize Avid, Antares and Waves Plugins to mix and edit sound tracks.
- Able to quickly isolate and correct audio problems such as buzz, hiss, feedback and signal loss.
- Relied heavily on efficient decision making in fast paced and high stress work environment.

2014-2015 Crystal Clear Studio Philadelphia, PA
Audio Engineer apprenticeship under Joey Heier

- A large amount of experience using condenser microphones. This experience covers Neumann U87, Neumann KM184, Neumann U47 as well as AKG 414, AKG 451, CAD M179, Shure SM81.
- Huge amount of knowledge in miking up studio spaces, instruments, amps and drum kits.
- Experience setting up and tearing down a variety of recording sessions.
- Worked extensively with Pro Tools 12.
- Extremely comfortable working with Avid console, having worked 100 hours in apprenticeship setting up Pro Tools mixing tracks and mastering for playback recording.
- Deliver final audio files to costumers and make adjustments as needed.
