#### Budget:

In all this movie can be produced with very low costs. It'll take 50 thousand dollars to fully complete this project. Ive fully thought it out and with all the cameras, actresses, crew, etc... itll be a low budget. And it can be achieved in less than a year.

Funding: I'd start a go fund me account first off to raise some money for the film then also ask for donations and investments. Then finally find some producer to really seal the deal.
