RE: Experienced Assistant Engineer for hire

Dear Jeff Hall,

You need a sharp Assistant Engineer with great attention to detail and excellent skills. My education and training make me an ideal candidate for this position.

My educational background has prepared me for the role of Assistant Engineering. In particular, my study of Audio Engineering has given me a solid background so that I can perform duties such as Mixing and Mastering, setting up equipment for recording sessions, etc. I am eager to contribute my enthusiasm and up-to-date skills to the Maximus Media team.

I am certain that my resume will give you a greater understanding of my qualifications for this exciting opportunity. I will call your office on 04/21/2014 to discuss the arrangement of a formal meeting.

I would greatly appreciate the opportunity to work with and learn from you and your talented team. I look forward to speaking with you soon.

Sincerely,
Johnathan Baker
